RISK

Management

Risk Management

Risk Management is a discipline at the core of every financial institution and encompasses all the activities that affect its investment risk profile. The objective of Risk Management is to identify measure and control various risks prevailing over operation of the Financial Institution.

Risk is inherent uncertainty about future outcomes of business/investment events which can be either positive or negative. Risk is the probability that both the expected and unexpected events may impact adversely on the Financial Institution's capital or earnings. Financial Institutions are invariably faced with different types of risks that may have a negative effect on their business.

Due to complex and competitive business environment, challenges of Financial Institutions are increasing. FIs are continuously exploring innovative and effective ways to increase revenues, maintain necessary capital ratios, improve margins, strengthen balance sheets and enhance efficiencies. Economic volatility, issues involving data security and troubled assets are reasons for additional concern for the Financial Institutions.

Therefore, in response to competitive and ever evolving dynamic business environment, it has become necessary to manage risks towards ensuring sustained long-term survival and continued smooth operation.

Risk management is a constant challenge for all Financial Institutions. Risk Management entails four key processes i.e. risk identification, risk measurement, risk control and risk monitoring.

Risk Identification:

To manage risks, identification of existing risks or risks that may arise from both existing and new business initiatives (for example, risks inherent in lending activity include credit, liquidity, interest rate and operational risks) is very important for the organization. Risk identification is a continuing process which may occur at both the transaction and portfolio level.

Risk Measurement:

After identification of risk, it is required to measure the risk to determine their impact on the institution's profitability and capital. This can be done using available techniques ranging from simple to sophisticated models.

Accurate and timely assessment of risk is essential for effective risk management systems. An institution that does not have a risk measurement system has limited ability to control or monitor risk levels. Risk measurement will have to be done periodically in order to make sure that the measurement tools it uses are accurate. Good risk measurement systems assess the risks of both individual transactions and portfolios.

Risk Control:

After measuring risk, an institution may establish and communicate risk limits through policies, standards and procedures that define responsibility and authority. Institutions may also apply various mitigating tools in minimizing exposure to various risks. Institutions may have a process to authorize exceptions or changes to risk limits when warranted.

Risk Monitoring:

An effective management information system (MIS) must be in place to monitor risk levels and facilitate timely review of risk positions and exceptions. Monitoring reports must be frequent, timely, accurate and informative and be distributed to appropriate individuals to ensure action, when needed.

The key elements of an effective risk management framework are:

- a) Active Board and senior management oversight;
- b) Appropriate policies, procedures and limits;
- c) Adequate risk measurement, monitoring and management information systems; and
- d) Comprehensive internal controls.

SABINCO's business activities are guided by the Board approved "Core Risk Management Guidelines". In addition, an analytical report titled "**Risk Management Paper**" incorporating all risk areas is prepared on a monthly basis. This report is discussed in depth at SABINCO's Risk Management Forum and necessary corrective actions are implemented.

We are continuously striving to mitigate risk arising from operational activities by adopting various policies and guidelines, such as Credit Risk Management Guidelines, Assets Liabilities Management Guidelines, Internal Control and Compliance Guidelines, Information and

Communication Technology Guidelines, Anti-money Laundering and Combating with Terrorist Financing Guidelines, Customer Services and Complaint Management Guidelines. SABINCO strictly adheres to these policy guidelines. Apart from internal policy guidelines, instructions and rules and regulations of Bangladesh Bank are being followed in letter and spirit. Management's consistent commitment to sound risk management, has resulted in SABINCO's strong capital and liquidity position.

Risks Mitigation:

a. Credit Risk

This arises mainly from lending, settlement and other financial transactions. Credit risk comprises counterparty risk, settlement risk and concentration risk.

Credit risk is undoubtedly one of the most crucial issues in the field of financial risk management. Being a Financial Institution, SABINCO needs to manage the credit risk inherent in the entire portfolio as well as the risk in individual credits or transactions.

SABINCO practices standard credit norms and principles for credit/investment approval and monitoring. SABINCO has already formulated Credit Risk Management Guidelines and has been updated as and when required. To mitigate the credit risk, SABINCO takes the following approaches:

1. Maintaining credit portfolio mix;
2. Limiting single borrower/ sectoral/ product exposure;
3. Credit/investment assessment;
4. Credit/investment risk grading;
5. Environmental and social risk rating;
6. Review of CIB Report;
7. Risk based pricing;
8. Verifying security documents;
9. Credit approval from appropriate authority as per limit set by CRM Guideline;
10. Credit monitoring and recovery;
11. Verifying Credit approval/ disbursement compliance issues by Internal Auditors;
12. Reporting to Board of Directors/ Regulators;
13. Review of Credit Risk Management Policy Guidelines (as and when required).

Internal Committees to address Credit/ investment Risk:

1. Credit Committee
2. Trade Committee
3. CRM Committee

b. Market Risk:

Market Risk relates to value of future cash flows of the financial instruments which will fluctuate due to change in different market variables, namely:

- I. Interest Rate Risk
- II. Equity Position Risk
- III. Foreign Exchange Risk

In order to minimize the market risk, SABINCO has put in place a system of regular review of the lending and deposit rates and trading portfolio. The Asset Liability Management Committee (ALCO) of SABINCO reviews the balance sheet gap on a regular basis and determines the applicable interest rates depending upon the movement in the market interest rates.

c. Liquidity Risk

Liquidity risk arises when the FI, despite being solvent, fail to maintain or generate sufficient cash resources to meet payment obligations, or can only do so at a loss.

To manage liquidity, SABINCO ensures adequate liquidity to meet its liabilities when due, under both normal and stressed situations, without inflicting unacceptable losses or tarnishing SABINCO's credibility. After analyzing the overall liquidity and funding profile of Balance Sheet, necessary funds are being deployed to support ongoing business activities.

The Key measure for mitigating risk is the advances to match different maturity profiles, projection of payments, assets and liabilities maturity analysis.

d. Operational Risk

Operational risk is the risk of loss from inadequate or failed internal processes, people and systems or from external events. This includes information and legal risk but excludes reputational and strategic risk.

Supporting policies have already been adopted by SABINCO which deal with management of various areas of operational risk and are (a) Internal Control and Compliance Guidelines (b) Information and Communication Technology Guidelines and (c) Anti-money Laundering and Combating with Terrorist Financing Guidelines.

e. Technology Risk

Customers may suffer service disruptions, or they may incur losses arising from system defect such as failures, faults, in computer operations, or illegal or unauthorized use of computer system or IT security threats.

SABINCO has required system and processes to protect its Information Technology (IT) system and network infrastructure from possible physical break-ins, security breaches and other disruptions caused by increased use of technology. Computer break-ins could affect the security of information stored in and transmitted through these computer systems and network infrastructure. SABINCO has established Information and Communication Technology Policy and for ensuring smooth functioning continues to upgrade and modernize the IT platform/system automation.

f. Industry Risk

Industry risk is the possibility that a specific industry may fail to perform up to the level or even at par. Industry risk also refers to the risk of increased competition from foreign and domestic sources impacting on revenues, profit margins, market share etc. which could have an adverse effect on the business and financial condition.

Since inception, SABINCO has been absolutely client focused. Accordingly, SABINCO has formulated Customer Services and Complaint Management Guidelines and steps have been taken to enhance customer satisfaction by upgrading skills, systems and technology to meet such challenges.

SABINCO is attempting to add quality assets on competitive terms and also taken steps to broaden its product offering.

Corporate Governance

Fairness, transparency, accountability and responsibility are the minimum standard of acceptable corporate behavior. Good corporate governance practices enable the organization to increase efficiency, minimize risk, improve the standard of lending, invigorate the management and protect the rights of shareholders/stakeholders.

SABINCO recognizes the importance of Corporate Governance and has established policies to provide direction and framework for oversight and management of the activities of the organization.

All the business decision are undertaken within the defined policy framework. Independent group and sub-group have been constituted across the organization to facilitate evaluation, monitoring and reporting of various risks.

SABINCO strictly abides by the policies and pursues due diligence in all areas of operation towards fulfilling the Company's objectives.

Duties and responsibilities are appropriately delineated between the Board and Management for checks and balances, to ensure smooth business operation.

The Board provides strategic and policy decisions to attain pre-determined goals and objectives of the organization. The Board approves the annual budget and reviews the same from time to time so as to provide direction as per changing requirement.

For establishing effective risk management in credit and other key areas of operation the Policies and Manuals of the various segments of business are also reviewed by the Board. The Board also ensures that adequate internal control systems are in place and are consistently complied with.

As a locally incorporated financial organization, SABINCO is also guided, in its corporate governance practices, by the regulatory authority (i.e. the Bangladesh Bank) ensuring full compliance to all the rules and regulations of the regulator.

Internal Control and Compliance Department of SABINCO is also structured as per the guidelines of Bangladesh Bank. This department ensures proper compliance of all regulatory instructions and internal policies and procedures in the day to day operations.

A well-structured risk management system is in place to identify, measure, monitor, and control various risks in accordance with explicit and well-defined policies and procedures. The Risk Management Team maintains co-ordination with the representatives of the various functions to implement risk management policies and practices.

SABINCO also has a Board approved code of conduct for the employees of the Company and all the employees are required to maintain code of conduct

properly and demonstrate highest ethical standards.

For quick disposal of credit proposal, the Board has delegated authority to the Executive Committee to take necessary decision and approve business proposal within certain limit.

The Board has also delegated required financial power to the Management.

Board of Directors:

According to clause 43 of the Articles of Association, the Board of Directors of SABINCO comprises of six members including the Chairman and the Deputy Chairman.

The Chairman and two of the Directors are nominated by the Government of the Kingdom of Saudi Arabia while the Deputy Chairman and two Directors are nominated by the Government of the People's Republic of Bangladesh.

A total of 4(four) Board meetings were held during the year 2020, wherein besides project financing, several important decisions were taken.

Audit Committee:

SABINCO has a Board Audit Committee which plays an important role. The Board Audit Committee oversee all financial reporting process and disclosures,

reviewing the adequacy of internal control system and findings of internal investigations.

The committee also reviews the audit report relating to core business operations and the taken over projects and compliance with all laws and regulations.

Executive Committee:

The Executive Committee (EC) of the Board approves credit proposals as per approved policy of the Board. EC also reviews the policy and guidelines issued by Bangladesh Bank in respect of credit risk and other operational activities in the industry.

While submitting the credit proposals for approval, SABINCO Management ensures due diligence of adherence of the Board approved policy and risk management.

Internal Control and Compliance:

A sound internal control system plays an important role in contributing to the effectiveness of the organization in its business operation in an efficient manner. This ensures sound financial reporting and control procedures as well as compliance with relevant laws and regulations.

SABINCO has established an appropriate and effective internal control policy in line with the requirement of the organization. An independent Internal Control and Compliance Department has also been established and the aim of this department is to provide reasonable assurance regarding the reliability of the financial reporting, compliances with laws, regulations and internal policies, consistency of Company's procedures and protecting its resources.

As a tool of internal control, this Department undertakes periodic and special audit in accordance with audit plan to assess and improve the accuracy and reliability of the accounting and financial information and also to find out the weaknesses and defects in the control processes and report to the competent authority for corrective measures to protect the Company's interest.

Besides, the Internal Control and Compliance Department is also entrusted with the responsibility of administering the "Anti Money Laundering" regime within the Company as required by the Central Bank.

Sustainable Finance Activities

Green Banking:

Green environment is one of the most important issues world is witnessing today where people from all over the world are increasingly becoming concerned about environment pollution. Governments around the world are working towards balanced development where each country will be able to develop its economy with least negative consequences on the environment.

Bangladesh as a part of the global family is considered as one of the most vulnerable and severely affected countries due to the adverse consequences of environmental pollution. Bangladesh has enacted several legislative measures for different industries to minimize the damage on its environment. Green banking is one of the important policies developed by Bangladesh Bank for the financial sector.

Green Banking is in effect eco-friendly banking to prevent environmental degradation. Green banking involves a two-pronged approach. Firstly, green banking focuses on the green i.e. environmental-friendly transformation of internal operations of all Banks and FIs. It means all the Banks and Financial Institutions should adopt appropriate ways of utilizing renewable energy, automation and other measures to minimize carbon footprint from banking activities.

Secondly, all Banks and Financial Institutions should adhere to environmentally responsible financing that supports green initiatives and projects, by assessing environmental risks of projects, prior to making financing decision.

In line with the instructions from the Central Bank, within the ambit of green banking policy, SABINCO has formulated its own Green banking policy duly approved by Board and taken following initiatives:

- Developed its internal Green Banking policy and Green Office Guide to institutionalize various aspects across the organization. Besides, SABINCO has also incorporated the Environment and Social Risk Management (ESRM) in Credit Risk Management Policy. SABINCO complies with the Environmental and Social Due Diligence (ESDD) checklist while approving projects.

- Installed Solar Panel in its own building to meet a part of its electricity consumption from Solar Energy.
- Through participation in Syndicate Finance in 2020, disbursed Tk. 183 million for setting up a grid tied solar power plant at Teknaf, Cox's Bazar to supply 20 MW electricity.

SABINCO envisages financing environment friendly i.e. green projects like Solar Energy, ETP, Bio Gas Plant, Auto Brick etc. while approving other industrial projects. SABINCO encourages the borrower to install necessary effluent/waste treatment system to safeguard the environment. Promoting green projects will eventually reduce environmental risks and ecological degradation, thus ensuring sustainable development.

Sustainable Development Initiatives: (CMSME)

(Cottage, Micro, Small and Medium Enterprises)

Ms. Kohinur Begum

Ms. Kohinur Begum lives in Banishanta, Dacope, Khulna. As a homemaker, she used to tailor clothes of the neighboring people for meeting her family needs. She has been familiar with embroidery works also and contemplating to expand her tailoring business. In the meantime, she came to know about SABINCO's financial services extended to the root level people. Under Microfinance Program of SABINCO, she availed loan of Tk. 30,000/- and bought a sewing machine. With that machine, she augmented her tailoring business and now stitches cloths for the village people. Besides, she also started to sell embroidered Sarees and Nakshi Kantha (embroidered quilt) at local market. Currently, she is earning a good amount per month by doing tailoring and embroidery business and maintaining her family well.

Sustainable Development Initiatives: (CMSME)

(Cottage, Micro, Small and Medium Enterprises)

Ms. Sulekha Mondal

Ms. Sulekha Mondal, another homemaker from Ramnagar, Dacope, Khulna was primarily engaged in household chores and seasonal works. Under Microfinance Program of SABINCO, she availed a loan of TK. 50,000/- for cattle rearing and developing a cowshed. Through availing loan, she has bought few cattle and started rearing them. She is hopeful that she could earn a good profit by selling them in the local market.

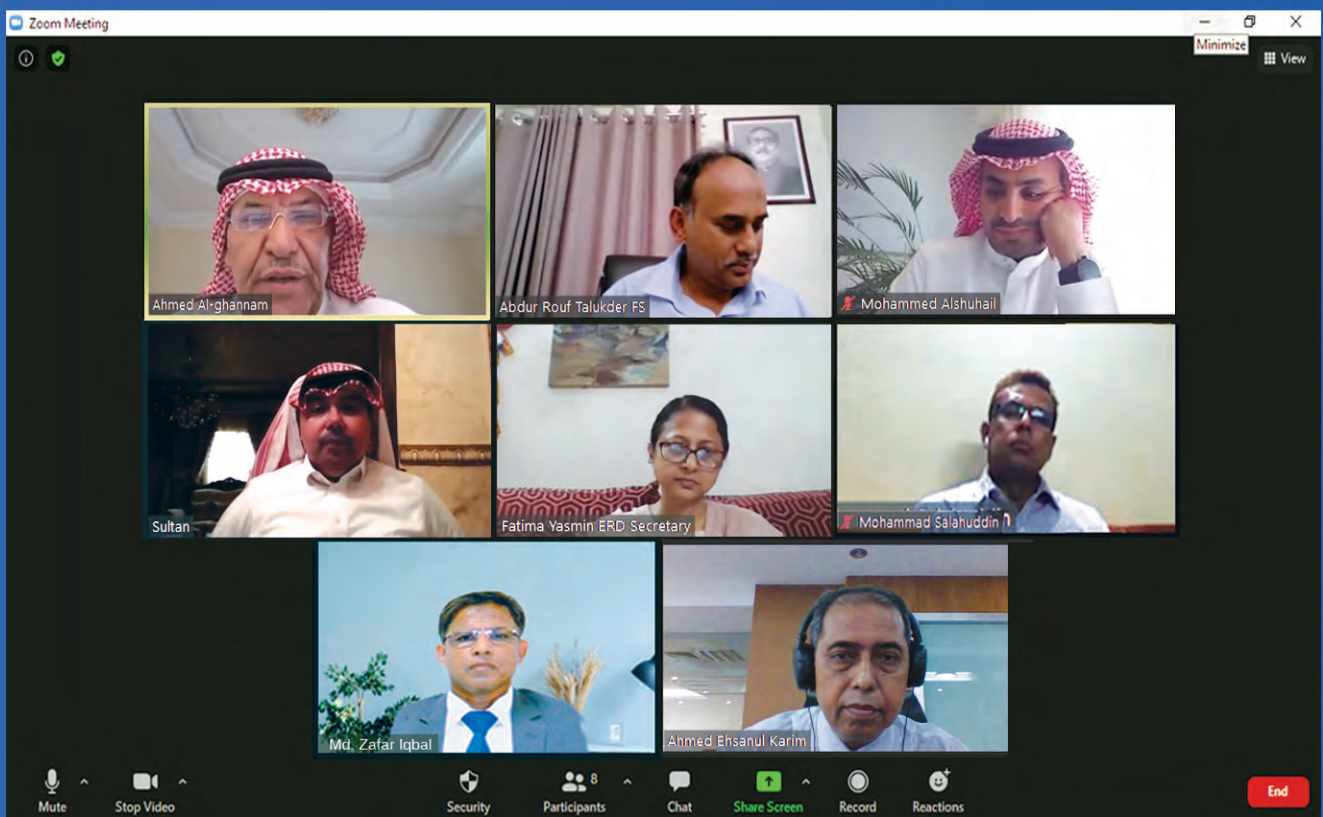

Ms. Kalpana Das

Ms. Kalpana Das, a homemaker lives in Kailashgonj, Dacope, Khulna adjacent to Sundarban. Most of the inhabitants of the locality are poverty stricken because of its inhospitable geographic location. Ms. Kalpana, despite trying her best could not come out of poverty. She came to know about SABINCO's Microfinance Program to the root level women. Under Microfinance Program of SABINCO, Ms. Kalpana has availed a loan of Tk. 45,000/- and bought few cattle and started to rearing them. Now she has 3 cows and trying to increase the number of cows so that, she can develop a mini dairy firm in future. Thus expansion of business will bring fortune for her family.

36th ANNUAL GENERAL MEETING (AGM) held through Digital Platform for the first time

Zoom Image of AGM

CHAIRMAN'S MESSAGE

Dear Shareholders,

السَّلَامُ عَلَيْكُمْ وَرَحْمَةُ اللَّهِ وَبَرَكَاتُهُ

A very warm welcome and many felicitations to you all for participating in the 37th Annual General Meeting of SABINCO. On behalf of the Board of Directors, and myself, I would like to express my sincere thanks and heartfelt gratitude to all of you for your interest, support and patronage in achieving SABINCO's continued success.

The year 2020 had been extremely challenging for the whole world because COVID-19 pandemic has been slowing down economic activities leading to possible global recession causing immense loss of lives, job cut and increase in poverty.

During 2020, inspite of big upheavals in the global economic activities, Bangladesh managed a modest growth of 5.24% (FY 2019-2020). Point-to-point inflation in December 2020 reached 5.29%. The foreign exchange reserve stood at US\$ 43 billion mark. But it is anticipated that the country's economy would have spill-over effect due to the COVID-19, which was spreading in export destinations and trade partners of Bangladesh i.e., USA and Europe.

With the guidance and stewardship of the Board of Directors, Management was able to deliver satisfactory financial performance during 2020. SABINCO continues to enjoy the benefit of a strong Balance Sheet with diversified revenue base. As on 31 December 2020 the total Assets and total Equity of the Company stood at Taka 8,490.98 million and Taka 7,132.05 million respectively. Besides, the Company earned a satisfactory Net Profit of Taka 315.11 million during 2020.

However, during 2020 as expected SABINCO faced hurdles in respect of new approval and consequently disbursement thereof due to the impact of the pandemic. During the year 2020, the Company made disbursement of Taka 524.61 million and financing commitment of Taka 300 million. Besides, an amount of Taka 1,406.61 million has been awaiting disbursement to 10 upcoming projects.

Despite the headwinds, relentless efforts of the Company continued as before towards recovering dues and as a result the recovery was at 89 percent during 2020.

The Company continues to pay significant amount as dividend to both the shareholding Governments.

Compliance, integrity and good governance has been the key guiding principles of SABINCO. SABINCO's Corporate Governance has been framed to embody transparency and accountability across the enterprise. I therefore firmly believe that strong supervision and control measures will ensure sustainable growth in the coming years.

SABINCO has also been proactively engaged in Corporate Social Responsibilities (CSR) activities focusing in the areas of education, health care and helping the disadvantaged.

I would like to convey my indebtedness and thanks to my fellow members of the Board for their co-operation and support for the overall improvement of SABINCO and my gratitude to both the Governments of the Kingdom of Saudi Arabia and

the People's Republic of Bangladesh for their collective wisdom and continued support.

I also convey my thanks and good wishes to the Management and all employees who have contributed to the continued growth and success of the Company.

I conclude with my sincere and special thanks to our respected shareholders, valued customers, patrons, well-wishers, Bangladesh Bank and other regulators for their guidance, support and co-operation.

With warm regards,

Sincerely yours

(Ahmed M. Al-Ghannam)
Chairman

DIRECTORS' REPORT

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Dear Shareholders,

السَّلَامُ عَلَيْكُمْ وَرَحْمَةُ اللَّهِ وَبَرَكَاتُهُ

The Board of Directors of Saudi-Bangladesh Industrial and Agricultural Investment Company Limited (SABINCO) take this opportunity to welcome you all to the 37th Annual General Meeting of the Shareholders and have immense pleasure to present before you the 37th Annual Report on the Performance of the Company together with the Audited Balance Sheet and Profit and Loss Account for the year ended on 31st December 2020 in compliance to Section 183 of the Companies Act 1994 and Article 67 of the Articles of Association of the Company.

Global Economy:

The year 2020 had been extremely challenging for the world economy due to advent of the COVID-19 pandemic which caused global recession, loss of lives, job cut, increase in poverty rate etc. The pandemic may create long lasting impact on economic activities around the globe, which would cause income to fall below the pre-pandemic trend for a prolonged period.

The global economy is estimated to contract by 4.3% in the year 2020, while growth was 2.3% in the year 2019. However, Global economy is expected to expand by 4% in 2021. Growth in Emerging Market and Developing Economies (EMDEs) is projected at 5% in 2021. Contraction in global trade and commerce affected both Advanced Economies and Emerging Market and

Developing Economies. Global trade is estimated to contract by 9.5% in 2020.

The pandemic has intensified the risks associated with global debt accumulation. Debt levels have reached historic highs, making the global economy particularly vulnerable to financial market stress. Many countries have provided significant levels of fiscal support to recover their economies.

The fall in U.S. activity in the first half of 2020 indicates the depth of the recession.

During 2020, US economy experienced contraction of 3.6%. Growth is projected to recover to 3.5% in 2021. Activity may strengthen in the second half of 2021 and firm further next year due to improvement of COVID-19 management supported by vaccination program.

In Euro Zone, sharp resurgence of COVID-19 hampered the rebound in economic activity in the third quarter of 2020, which prompted many member countries to re-impose stringent lockdown measures. Service sectors playing the pivotal role to the area's economy like tourism remain depressed and may not recover until effective management of the pandemic creates confidence. National fiscal support packages were strengthened by grants from the European Union to the hardest-hit member countries and expected to support activity in 2021.

Following a sharp contraction of 7.4% in 2020 in Euro zone, growth is forecast to rebound to 3.6% in 2021. Growth is projected to strengthen further to 4% in 2022.

Growth of China slowed down to an estimated 2% in 2020: the slowest pace since 1976. But due to the effective control of pandemic and public investment-led stimulus, recovery of the economy was solid but uneven with consumer services trailing industrial production. Accommodative fiscal and monetary policies led to sharp increase in the government deficit and total debt.

Growth in China is forecast to pick up to 7.9 percent in 2021 and 5.2 percent in 2022.

In Japan, prompt management of COVID-19 together with significant fiscal support, stimulated a rebound in activity in the third quarter of 2020. After contracting by an estimated 5.3 percent in 2020, activity is expected to expand by 2.5 percent in 2021 as additional fiscal stimulus is implemented and pandemic control measure is expected to phase out. Growth is projected to tick down to 2.3 percent in 2022.

During 2020, Global trade collapsed as a consequence of border closures and supply chain disruptions.

Trade policy uncertainty exists due to the potential of renewed trade tensions between major economies. Higher tariffs on U.S.-China trade remain in effect. The recently announced Brexit deal between the United Kingdom and the European Union may contribute to decline in trade uncertainty.

Global trade is estimated to contract by 9.5 percent in 2020 and expected to grow on an average 5.1 percent in 2021-22.

Most commodity prices recovered in the second half of 2020. Due to impact of pandemic on global oil demand, the

pickup in oil prices lagged the broader recovery in commodity prices. On an average crude oil prices were \$ 41/bbl in the year 2020, a 34% fall from 2019. Base metal prices were on net broadly flat in 2020, as sharp falls in the first half of the year followed by a strong recovery in the second half due to rising demand.

Bangladesh Economy:

While the world is reeling under an economic crisis due to the COVID-19 pandemic, the economy of Bangladesh also being affected by the nationwide lockdown and spill-over effect of COVID-19, which was spreading in USA, Europe etc. i.e. major export destinations of the country.

Although the harm to public health inflicted by the pandemic has been relatively limited in Bangladesh, but during the pandemic nationwide lockdown was imposed for which many businesses suffered and income of people shrank. Government had come up with timely measures through providing number of stimulus packages and Bangladesh's economy managed a modest growth of 5.24% in FY 2019-2020. The per capita national income increased to US\$ 2,064 in FY 2019-20 up by US\$ 155 in a year.

The economy of Bangladesh is a developing market economy. It's the 35th largest in the world in nominal terms, and 30th largest by purchasing power parity. Bangladesh achieved Ba3 (Moody's) and BB-(Standard and Poor's) with stable outlook for the 11th consecutive years. Fitch Ratings also affirmed BB- with stable outlook for the 8th time.

Bangladesh has also achieved increase in life expectancy currently at 72.6 years, and literacy at 74.4%, while infant mortality has reduced significantly to 21 per 1000 live births.

The foreign exchange reserve stands at US\$ 42.97 billion mark (December 2020). Moreover, Bangladesh Bank's monetary policy objectives have been directed at lowering the interest rates for both deposits and lending in the banking industry, which is expected to encourage further investment in the country. Point-to-point inflation in December 2020 reached at 5.29 percent.

Service is the largest sector in terms of contribution to GDP, which comprises 51.30 percent of the gross domestic product. Service sector growth in 2019-2020 was 5.32 percent in comparison to 6.78 percent in 2018-2019. It includes all services activities such as trade service, transport, storage, communication, real estate, public administration and defense, education, health, financial intermediations.

Industrial sector contributed around 35.36 percent of the country's gross domestic product and the growth of this sector in 2019-2020 was 6.48 percent in comparison to 12.67 percent in 2018-2019. Growth in industrial sector was in electricity, gas & water supply, mining & quarrying and the manufacturing sector.

Agriculture continues to make substantial contribution to the Bangladesh Economy which comprises 13.35 percent of the country's GDP. The country is situated in one of the most fertile regions on the earth endowed with the principal cash crops rice, jute, tea, wheat, cotton and sugarcane.

The RMG & Knitwear industry is the largest industrial sector of the country employing around 3.6 million people and contributed around 83% of Bangladesh's total export earnings of US\$ 33.67 billion in the Fiscal year 2019-20.

Bangladesh has huge potentials for investment because of its geographical location. It has easy connectivity with East & South Asia that includes two

emerging economic giants of the world: China and India. The southern side opening to the Bay of Bengal facilitates navigation across the world to explore the benefits of the untapped blue economy. Thus Bangladesh can be a hub of regional connectivity and investments.

Bangladesh Government has been prioritizing creation of favorable investment climate through setting up economic zones. The initiative to establish economic zones aim at encouraging industrialization, generating employment opportunities, augmenting production and ensuring export promotion and diversification. Establishment of 88 economic zones (59 Government and 29 private) in different parts of the country is underway. Two of the economic zones had been exclusively earmarked for Japanese and Chinese investors.

The Government has also taken massive plan for increasing electricity generation capacity. Current installed power generation capacity of the country is 24,594 MW.

Operational Activities:

BUSINESS REVIEW:

SABINCO continues to make its presence in the economic development of the country through financing in different sectors. SABINCO maintained overall satisfactory financial and operational performance during 2020.

Our loan portfolio remained well diversified among some 9 industrial sectors. The financed projects are in the Agriculture, Cement, Electronics & Electrical, Food Production and Processing Industry, Iron Steel & Engineering, Power, Textiles, Telecom and Information Technology etc.

Total investments by SABINCO in terms of loan, equity and bond stood at Taka 4,216.40 million at the end of 2020 against Taka 4,466.45 million at the end

of 2019. As on 31st December 2020 the total assets of SABINCO stood at Taka 8,490.98 million.

Capital Market Operation:

The Market broad index which was 4,453.29 (DSEX) at the beginning of the year, closed at 5,402.06 points at the end of the year and the market capitalization, which was Taka 3,400.47 billion in January 2020, closed at Taka 4,482.30 billion in December 2020.

During the year under report, SABINCO was able to sell shares worth Taka 2.00 million (acquisition cost) from its portfolio and was able to make a capital gain of Taka 20.42 million. In addition, during the year a sum of Taka 0.86 million as cash dividend and stock dividend of Taka 0.05 million (estimated value) were received from various companies.

Taken Over Projects:

SABINCO has in its portfolio three taken over projects under its direct Management, which included two Black Tiger shrimp culture projects and one Fish and Poultry feed mill. The net worth evaluation of these projects has been completed and tenders were floated for disposal of all three taken over projects (SBFFL, GFCL, & S&M Shrimp). However, none of the projects could be sold as the offered prices were not commensurate with evaluated net worth and considered unacceptable.

Efforts have been underway to dispose of the projects as going concern but COVID-19 pandemic adversely affecting the process.

Status of Recoveries:

At the end of 2020, SABINCO had 39 projects in its portfolio. During the year 2020, total collectible dues were Taka 1,260.16 million from various projects and investment, of which an amount of Taka 1,120.54 million was recovered, which is 89% of the total dues.

Resources:

SHAREHOLDERS' EQUITY:

Shareholders' equity includes the paid-up capital, general reserve, statutory reserve, revaluation reserve and retained earnings. The Authorized and Paid-up capital of SABINCO remains unchanged at Taka 2,106.08 million or equivalent to US Dollar 60 million divided into 20,000 shares of US Dollar 3,000 each as at 31st December 2020, of which each Government subscribed 10,000 shares in the capital of the Company.

As per Financial Institution Act 1993, 20 percent of the Profit is required to be transferred to Statutory Reserve and with this latest allocation; the Statutory Reserve increased from Taka 1,112.84 million to Taka 1,175.94 million.

So far SABINCO has built-up General Reserve of Taka 1,629.42 million from its profits.

The total Shareholder's Equity as on 31st December 2020 stood at Taka 7,132.05 million compared to Taka 7,026.95 million for the previous year.

Cash Resources:

SABINCO had deposits of Taka 1,705.11 million and US\$ 0.456 million as on 31 December 2020, as compared to Taka 1,240.85 million and US\$ 0.478 million as on 31 December 2019.

Operational Results:

SABINCO during 2020 also continued to maintain more than the required provision against loans, investments and other related exposures, amounting to Taka 457.56 million in 2020, the amount of provision was same in 2019.

Net profit posted for 2020 was Taka 315.11 million as compared to Taka 337.95 million during 2019.

Thus, the earnings per share stood at Taka 15,755 in 2020, while Return on Investment and Return on Asset stood at 4.42% and 3.76% respectively.

Appointment of Auditors:

Pursuant to Clause 24(1) of the Financial Institutions Act 1993, and as per Articles 75 and 76 of the Articles of Association of the Company, Statutory Auditors are to be appointed annually at the Annual General Meeting.

The existing auditors, M/s. A. Wahab & Co., Chartered Accountants, being eligible, have offered themselves for reappointment as statutory auditors for the year 2021 at a fee of Taka 177,100 (last year audit fee).

Employees and Establishments:

The total strength of employees of the Company during the year stood at 43 comprising 27 officers and 16 staff. During the year, 2 employees retired and 1 employee resigned.

Appropriations:

SABINCO earned a net Profit of Taka 315,105,811 during the year 2020. Further, as per the requirement of the Financial Institution Act, 20% of the net profit amounting to Taka 63.10 million is proposed to be transferred to Statutory Reserve. Additionally, an amount of Taka

42 million is being proposed to be retained as Retained Surplus and Taka 210 million as cash dividend, payable to the shareholders.

In view of the above propositions, the available Profit of Taka 315,105,811 is recommended to be apportioned as under:

	Taka
Statutory Reserve	63,100,000
General Reserve	-
Proposed Dividend	210,000,000
Retained Surplus	42,005,811
Total Appropriation	315,105,811

Sincerely,

On behalf of the Board of Directors

(Ahmed M. Al-Ghannam)
Chairman

UTILIZATION REPORT OF THE DONATION SO FAR RECEIVED FROM SABINCO

SUMMARY OF DONATION::

YEAR	DONATED AMOUNT (Tk)	TOTAL (Tk)
2010	100,000.00	100,000.00
2011	250,000.00	3,50,000.00
2012	300,000.00	6,50,000.00
2013	300,150.00	9,50,150.00
2014	300,000.00	12,50,150.00
2015	300,000.00	15,50,150.00
2016	3,50,000.00	19,00,150.00
2017	3,50,000.00	22,50,150.00
2018	4,00,000.00	26,50,150.00
2019	3,50,000.00	30,00,150.00
2020	2,85,000.00	32,85,150.00

SUMMARY OF UTILIZATION:
***HICARE'S MISSION:**

1. To inspire and motivate parents of all hearing impaired children between 2 and 12 years of age to bring their children under speech training and education system.
2. To provide education for the hearing impaired children to enable them to integrate with main stream education of the Country.
3. To establish a country-wide network through deaf camps to provide facilities for all kinds of audio-logical assessments, supply of hearing aids, ear moulds and repair services to hearing impaired persons of all ages.
4. To create public awareness against the causes of deafness.
5. To provide support to the poor hearing impaired persons of all ages to get proper audio-logical assessment using modern technology.
6. With that aim in succession we established 12 no. of Hicare Schools & 4 Hearing Centre all over Bangladesh.
7. Total 600 students are studying in these Schools.
8. 94 nos. of trained Teachers & Staffs are engaged for 600 students.
9. Nearly 90% of the students are poor.
10. About 1.2 million children of Bangladesh are now estimated hearing impaired and for these reason they are mostly deprived of any access to even the basic education. In respect of percentage it is nearly 10% of the total population. Keeping this reality our aim is to establish more schools along with Hearing Centre so as to educate the hearing impaired children in large numbers to able them to enter in main stream education.

WATER PURIFICATION AND RAIN WATER HARVESTING FACILITIES ESTABLISHED BY **SABINCO**

Villages adjacent to the Sunderbans have no access to potable/drinking water as surface and ground water of the areas are saline in nature. Villagers living in these areas are at health risk, as rain water collected in earthen ponds, are the only source of water for their domestic/household uses.

To make available potable water in some selected and harsh areas, SABINCO initiated setting up of three water desalination units – one unit each at Kailashgonj and Katakhalī union under Dacope Upazilla and the other one at Hodda union under Koira Upazilla, Khulna.

Additionally, amongst the alternative sources of potable water, rainwater harvesting is the most economical solution to mitigate drinking water crisis for the villagers adjoining the Sundberban region. SABINCO also has constructed two rainwater harvesting units in its project at Kailashgonj and Hodda.

Rainwater Collection in Asbestos Roofs

Kailashgonj, Dacope Upazilla, Khulna

- ◆ Due to growing demand for potable water in the area, SABINCO has also established absolutely **“Green Rainwater Harvesting Unit”** at Kailashgonj, Khulna. Rain water is collected in a specially built tin roofing having catchment area of 1,260 sft. The storage capacity of the unit is 60,000 liters. The water so collected is purified initially by an overhead filter containing sand, gravel, activated carbon etc. and then passed through a UV filter. All the electrical appliances in this unit are powered by solar energy only.
- ◆ SABINCO established the first green **“Water Desalination Unit run on Reverse Osmosis Process”** at Kailashgonj in association with BSRM in December 2015. The unit has a capacity to deliver 2,500 liters of potable water per day. About 250 families living in the nearby Kailashgonj and Ramnagar villages receive water daily from this unit mainly for drinking purpose free of cost.

Hodda, Koira Upazilla, Khulna:

- ◆ At Hodda, another **“Green Rainwater Harvesting Unit”** has been recently completed. In this case, the roof-top of the building has been used as the rainwater catchment area and the water so collected pass through an overhead filter, similar to the one described above, and finally purified water is dispensed free of cost. The storage capacity of this unit is 40,000 liters in underground concrete tank.
- ◆ Additionally, a pond at Hodda had been excavated which holds about 3,000 cubic meter of rainwater. Another green **“Reverse Osmosis Water Purification Unit”** at Hodda had been completed with a capacity of 6,400 liters per day. This unit is also supplying pure potable water to the villagers, fishermen, honey collectors, tourist and forest activists etc.

Katakhali, Dacope Upazilla, Khulna:

A 1,000 liter per day capacity green **“Reverse Osmosis water desalination unit”** has been implemented at Katakhali under Dacope Upazilla. The unit is supplying pure drinking water to the local inhabitants.

INDEPENDENT AUDITORS' REPORT

TO THE SHAREHOLDERS OF
SAUDI-BANGLADESH INDUSTRIAL AND
AGRICULTURAL INVESTMENT COMPANY LTD. (SABINCO)

Report on the Financial Statements

Opinion

We have audited the financial statements of Saudi- Bangladesh Industrial and Agricultural Investment Company Ltd. which comprise the statement of Balance Sheet as at 31 December 2020 and Profit and Loss account, Statement of Changes in Equity and Cash Flow Statement for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the Balance Sheet of the Saudi- Bangladesh Industrial and Agricultural Investment Company Ltd. as at 31 December 2020 and of its financial performance for the year then ended in accordance with International Financial Reporting Standards (IFRSs) and comply with the applicable section of Financial Institution Act, 1993, the regulation issued by Bangladesh Bank and Companies Act, 1994 and other applicable laws and regulations.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the company in accordance with the International Ethics Standards Board for Accountants Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements that are relevant to our audit of the financial statements in Bangladesh and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the consolidated and separate financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Measurement of provision for loans, advances	
<p>The process for estimating the provision for loans, advances and leases portfolio associated with credit risk is significant and complex.</p> <p>For the individual analysis for large exposure, provisions calculation consider the estimates of future business performance and the market value of collateral provided for credit transactions.</p> <p>For the collective analysis of exposure on portfolio basis, provision calculation and reporting are manually processed that deals with voluminous databases, assumptions and estimates.</p> <p>At year end the Company reported total gross loans and advances of BDT 3,503.04 million (2019: BDT 3,547.69 million) and provision for loans, investments and other assets of BDT 457.56 million (2019: BDT 457.56 million).</p>	<p>We tested the design and operating effectiveness of key controls focusing on the following:</p> <ul style="list-style-type: none"> ● Credit appraisal, loan disbursement procedures, monitoring and provisioning process; ● Reviewed quarterly Classification of Loans (CL); <p>Our substantive procedures in relation to the provision for loans and advances portfolio comprised the following:</p> <ul style="list-style-type: none"> ● Reviewed the adequacy of the general and specific provisions in line with related Bangladesh Bank guidelines; ● Assessed the methodologies on which the provision amounts are based, recalculated the provisions and tested the completeness and accuracy of the underlying information; ● Evaluated the appropriateness and presentation of disclosures against relevant accounting standards and Bangladesh Bank guidelines. ● Finally, compared the amount of provision requirement as determined by Bangladesh Bank inspection team to the actual amount of provision maintained.
See note nos. 6.00 and 10.01 to the financial statements	
Legal and regulatory matters	
<p>We focused on this area because the Company operates in a legal and regulatory environment that is exposed to significant litigation and similar risks arising from disputes and regulatory proceedings. Such matters are subject to many uncertainties and the outcome may be difficult to predict.</p> <p>These uncertainties inherently affect the amount and timing of potential outflows with respect to the provisions which have been established and other contingent liabilities.</p> <p>Overall, the legal provision represents the Company's best estimate for existing legal matters that have a probable and estimable impact on the Company's financial position.</p>	<p>We obtained an understanding, evaluated the design and tested the operational effectiveness of the Company's key controls over the legal provision and contingencies process.</p> <p>We enquired to those charged with governance to obtain their view on the status of all significant litigation and regulatory matters.</p> <p>We assessed the methodologies on which the provision amounts are based, recalculated the provisions, and tested the completeness and accuracy of the underlying information.</p> <p>We also assessed the Company's provisions and contingent liabilities disclosure.</p>

IT systems and controls	
<p>Our audit procedures have a focus on IT systems and controls due to the pervasive nature and complexity of the IT environment, the large volume of transactions processed in numerous locations daily and the reliance on automated and IT dependent manual controls.</p> <p>Our areas of audit focus included user access management, developer access to the production environment and changes to the IT environment. These are key to ensuring IT dependent and application based controls are operating effectively.</p>	<p>We tested the design and operating effectiveness of the Company's IT access controls over the information systems that are critical to financial reporting.</p> <p>We tested IT general controls (logical access, changes management and aspects of IT operational controls). This included testing that requests for access to systems were appropriately reviewed and authorized.</p> <p>We tested the Company's periodic review of access rights and reviewed requests of changes to systems for appropriate approval and authorization.</p> <p>We considered the control environment relating to various interfaces, configuration and other application layer controls identified as key to our audit.</p>

Other Information

Management as well as Directors are responsible for the other information. The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditors Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- ◆ Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ◆ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- ◆ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- ◆ Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosure in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- ◆ Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- ◆ Obtain sufficient appropriate audit evidence regarding the financial information of the Company to express an opinion on the financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

- a) The information and explanations required by us have been received and found satisfactory;
- b) We have obtained all the information and explanation which to the best of our knowledge and belief were necessary for the purposes of our audit and made due verification thereof;
- c) Nothing has come to our attention regarding material instances of forgery or irregularity or administrative error and exceptions or anything detrimental committed by employees of the Company and its related entities.
- d) In our opinion, proper books of account as required by law have been kept by the Company so far as it appeared from our examination of those books.
- e) The balance sheet and profit and loss account together with the annexed notes of the Company dealt with by the report are in agreement with the books of account.
- f) The expenditure incurred was for the purpose of the company's business.
- g) The financial statements of the company have been drawn up in conformity with Financial Institution Act, 1993 and in accordance with the accounting rules and regulations and accounting standards as well as with related guidance issued by Bangladesh Bank.
- h) Adequate provisions have been made for loans and advances which are, in our opinion, doubtful of recovery.
- i) The information and explanation required by us have been received and found satisfactory.
- j) We have reviewed over 80% of the risk weighted assets of the Company and spent required hours for the audit of the books and accounts of the company as per law.

The following assumptions have been applied in preparing the maturity analysis:

- Investments are on the basis of their expected timing of Cash flows.
- Loans and advances are on the basis of their maturity.
- Fixed assets including land & land development, furniture and fixtures are on the basis of their useful life.
- Other assets are on the basis of their adjustment.
- Other liabilities are on the basis of their adjustment.

Notes to the Financial Statements

For the year ended 31 December 2020

1.00 Background of SABINCO:

Saudi Bangladesh Industrial and Agricultural Investment Company Limited (SABINCO) is a joint venture Industrial Finance and Investment Company owned by the Governments of Saudi Arabia and Bangladesh.

The Company was incorporated under the Bangladesh Companies Act 1913 (now 1994) on 24th June 1984 with its headquarter in Dhaka and commenced operation in 1986. In 1995, it was granted a license to operate as a Non Bank Financial Institution (NBFI) by Bangladesh Bank.

The company has a paid up capital of USD 60 million equivalent to Taka 2,106.08 million with following shareholdings:

Government of the Kingdom of Saudi Arabia - 50%

Government of the People's Republic of Bangladesh - 50%

The company has a six-member Board of Directors to which the Government of Saudi Arabia nominates the Chairman and two members, while the Deputy Chairman and two other members are nominated by the Government of Bangladesh.

SABINCO offers both loan and equity based products and it also acts as financial intermediary and advisor. SABINCO has promoted several medium and large scale industrial projects in the manufacturing, agro based and infrastructure sectors some of which were first of its kind in Bangladesh.

SABINCO played a pioneering role in the Bangladesh economy by creating new industrial sub sectors like industrial scale fish farming, fishery and poultry supporting industries, private sector cement factory, export oriented fruit and vegetable processing unit etc.

SABINCO also extends financing in the Telecom & IT, Electronics & Electrical, Textiles, Iron, Steel & Engineering and Power Sector thereby expanding its financing depth and horizon.

1.01 Objective of the Company:

The objective of the company is to make investment in manufacturing, agro-processing, infrastructure and utility service projects/industries in Bangladesh on commercial basis through loans & advances and equity participation. The company has sanctioned 139 (2019:138) projects upto December 2020.

2.00 Summary of significant Accounting Policies and basis of preparation of the financial statements

2.01 Statement of compliance

The Financial Statements have been prepared on the basis of going concern concept and accrual method under historical cost convention in accordance with International Financial Reporting Standards (IFRS), the Financial Institution Act, 1993 the Companies Act, 1994 and other applicable laws and regulations.

In the event any requirement of the Financial Institutions Act, 1993 and provisions and circulars issued by Bangladesh Bank differ with those of IFRS, the requirements of the Financial Institutions Act, 1993, and provisions and circulars issued by Bangladesh Bank shall prevail. Material departures from the requirements of IFRS are as follows:

i) Investment in shares and securities

IFRS: As per requirements of IAS 39 investment in shares and securities generally falls either under "at fair value through profit and loss account" or under "available for sale" where any change in the fair value (as measured in accordance with IFRS 13) at the year-end is taken to profit and loss account or revaluation reserve respectively.

Bangladesh Bank: As per FID circular 08 dated 03 August 2002 investments in quoted shares and unquoted shares are revalued at the year end at market price and as per book value of last audited balance sheet respectively. Provision is required to be made for any loss arising from the diminution in value of the investment; otherwise investments are recognized at cost.

ii) Provision on loans and advances/ investments

IFRS: As per IAS 39 an entity should start the impairment assessment by considering whether objective evidence of impairment exists for financial assets that are individually significant. For financial assets that are not individually significant, the assessment can be performed on an individual or collective (portfolio) basis.

Bangladesh Bank: As per FID circular No. 8 dated 3 August 2002 and FID circular No. 3 dated 3 May 2006 a general provision at 1% to 5% under different categories of unclassified loans (good/standard loans) has to be maintained regardless of objective evidence of impairment. Also provision for sub-standard loans, doubtful loans and bad losses has to be provided at 20%, 50% and 100% respectively for loans and advances depending on the duration of overdue.

iii) Recognition of interest in suspense

IFRS: Loans and advances to customers are generally classified as 'loans and receivables' as per IAS 39 and interest income is recognized through effective interest rate method over the term of the loan. Once a loan is impaired, interest income is recognized in profit and loss account on the same basis based on revised carrying amount.

Bangladesh Bank: As per FID circular No. 8 dated 3 August 2002, once a loan is classified, interest on such loans are not allowed to be recognized as income, rather the corresponding amount needs to be credited to an interest suspense account, which is presented as liability in the balance sheet.

iv) Other comprehensive income

IFRS: As per IAS 1 Other Comprehensive Income (OCI) is a component of financial statements or the elements of OCI are to be included in a single Other Comprehensive Income statement.

Bangladesh Bank: Bangladesh Bank has issued templates for financial statements which are required to be strictly followed by all Financial Institutions. The templates of financial statements issued by Bangladesh Bank do not include Other Comprehensive Income nor the elements of Other Comprehensive Income allowed to be included in a single Other Comprehensive Income (OCI) Statement. As such the Financial Institution does not prepare the other comprehensive income statement. However, elements of OCI, if any, are shown in the statements of changes in equity.

v) Financial instruments presentation and disclosure

In several cases Bangladesh Bank guidelines categories, recognize, measure and present financial instruments differently from those prescribed in IAS 39. As such full disclosure and presentation requirements of IFRS 7 and IAS 32 cannot be made in the financial statements.

vi) Cash and cash equivalent

IFRS: Cash and cash equivalent items should be reported as cash item as per IAS 7.

Bangladesh Bank: Some cash and cash equivalent items such as 'money at call and on short notice', T-bills, Prize bond are not shown as cash and cash equivalent. Money at call and on short notice is shown as face item in statement of financial position and T-bills, Prize bonds are shown under Investment.

vii) Non-banking assets

IFRS: No indication of non banking assets is found in any IFRSs.

Bangladesh Bank:

As per the requirements of DFIM circular No. 11 dated December 23, 2009, there must exist a face item named Non-banking asset.

viii) Cash flow statement

IFRS: The Cash flow statement can be prepared using either the direct method or the indirect method. The presentation is selected to present these cash flows in a manner that is most appropriate for the business or industry. The method selected is applied consistently.

Bangladesh Bank: As per DFIM Circular 11 dated 23 December 2009, cash flow is the mixture of direct and indirect methods.

ix) Balance with Bangladesh Bank: (Cash Reserve Requirement)

IFRS: Balance with Bangladesh Bank should be treated as other asset as it is not available for use in day to day operations as per IAS 7.

Bangladesh Bank: Balance with Bangladesh Bank is treated as cash and cash equivalent.

2.02 Functional and presentation currency

The financial statements are presented in Bangladesh Taka (BDT), which is the company's functional currency. All values are rounded to the nearest BDT except when otherwise indicated.

2.03 Foreign Currency Translation

(i) Transactions in foreign currencies are translated into Taka at the foreign exchange rates prevailing on the Transaction date.

(ii) Monetary assets and liabilities in foreign currencies are expressed in taka at the rates of exchange prevailing on the Balance Sheet date.

2.04 Comparative information

As guided in paragraph 36 and 38 of IAS 1 Presentation of Financial Statements, Comparative Information in respect of the previous year have been presented in all numerical information in the financial statements and the narrative and descriptive information where, it is relevant for understanding of the current year's financial statements.

2.05 Reporting Date

The reporting period of the financial statements begins from 1st January 2020 to 31st December 2020.

2.06 Cash Flow Statement

Cash Flow Statement is prepared in accordance with IAS-7 (direct method) "Cash Flow Statement" and format provided by the Bangladesh Bank vide DFIM Circular No-11 dated 23 December 2009 as applicable for preparation of Cash Flow Statement.

2.07 Statement of changes in equity

The statement of changes in equity reflects information about the increase or decrease in net assets or wealth.

2.08 Liquidity statement (Assets & Liability Maturity Analysis)

The Liquidity Statement of assets and liabilities as on the reporting date has been prepared on residual maturity term, which has been given on the statement.

2.09 Assets and basis of their evaluation

2.09.1 Cash and cash equivalents

Cash and cash equivalents include notes and coins in hand, unrestricted balances held with Bangladesh Bank and highly liquid financial assets which are subject to insignificant risk of changes in their fair value and are used by the company management for its short term commitment.

2.09.2 Loans & Advances

- i) Loans and advances are stated at gross amount. Provision and interest suspense against loans and advances are shown separately as liability.
- ii) Interest on loans and advances is calculated and charged on monthly, quarterly, half yearly and in some instances on an annual basis.
- iii) Interest on loan is recognized as income only when it is realized in cash.
- iv) As per Bangladesh Bank directives, interest on loans and advances, which are classified as Bad/loss, is not accounted for. A separate memorandum record is maintained for such interest.
- v) Provisions for loans and advances are made on the basis of Bangladesh Bank FID Circular No.11 of 2005 and FID Circular No.03 of 2006:

General Provision on:	Rate
Unclassified (SME)	0.25%
Unclassified	1%
Special Mention Account (SMA)	5%
Sub Standard	20%
Doubtful	50%
Bad	100%

2.09.3 Investment

- i) Income from dis-investment in shares is accounted for as and when it is received.
- ii) Dividend is recognized as income when it is received/realized.
- iii) Value of Investments has been considered as follows:

Government securities-Prize Bonds	At cost Price
Investment in shares-Quoted	At cost Price
Investment in shares-Unquoted	At cost Price

Provision has been made at an estimate on the value of shares and bonds due to fluctuations of market value in terms of economic conditions that exists in the market. Necessary provisions are being made to cover the losses, if any, as per regulatory guidelines.

2.09.4 Recognition of Fixed Assets:

All property and equipment are classified and grouped according to the nature of individual assets and the major categories of assets are land, building, furniture and fixture, motor vehicles and equipment. Recognition of fixed assets has been made based on probable future economic benefits associated with the assets.

Fixed Assets are shown in the carrying amount as per IAS16 and such Fixed Assets have been stated at cost less accumulated depreciation i.e. at written down value.

Gain or loss on sale of fixed assets is recognized in profit and loss account.

2.09.5 Depreciation of fixed assets:

Depreciation on fixed assets has been charged on straight line method. Depreciation has been charged from the date of acquisition of assets during the accounting year on daily basis.

Depreciation has been calculated at the following rates:

Types of Assets	Rate of Depreciation
Building	5.0%
Furniture and fixture	12.5%
Motor vehicles	25.0%
Office and electrical equipment	20.0%

2.09.6 Intangible assets and amortization of intangible assets:

Intangible assets acquired separately are measured on initial recognition at cost and are carried at cost less accumulated amortization. Amortization is calculated using the straight line method to write down the cost of intangible assets to their residual values over their estimated useful lives based on the management best estimates of 5 year. Subsequent expenditure on software is capitalized only when it increases the future economic benefits in the specifications to which it relates. All other expenditure is treated as expense when incurred.

2.10 Liabilities and basis of their valuation

2.10.1 Employees benefit plans

The company operates a non-funded gratuity scheme and contributory provident fund.

Gratuity fund:

SABINCO operates a non-funded gratuity scheme, provision for which is made annually covering its all eligible employees according to the relevant provision of "Service Rules".

Provident fund:

The company maintains a contributory provident fund recognized by National Board of Revenue. The fund is administered by a Board of Trustee and it is funded equally by the employer and employees @ 10% of their basic salary.

2.10.2 Taxation

Income tax expense represents the sum of the tax currently payable along with the deferred tax. It is be noted that, SABINCO is exempted from the payment of

taxes vide the provision of SRO 103-AIN/2012 dated 19.04.2012, Article 26 (Specific Provisions), with effective date of 01 October, 2011.

In this connection, reference is made to the Articles VII & XI of the bilateral agreement "An agreement for the establishment of the Saudi Bangladesh Industrial and Agricultural Investment Company Limited", wherein the Company was exempted from payment of tax for an initial period of ten years from the date of the first balance sheet of the Company that showed profit, which commenced on 01 January 1985 and expired on 31 December 1994.

After the expiry of the tax holiday period the Company continued to pay taxes (for the next twenty two years) up to the assessment year 2017-2018, though the income of the Company was fully exempted once again from taxation as per the provision of SRO 103-AIN/2012 dated 19.04.2012, Article 26 (Specific Provisions), with effective date of 01 October, 2011.

The Company in the meantime has applied to the appropriate tax authority seeking refund of Tk.1,186,780,618 which was inadvertently paid by SABINCO during the assessment year 2013-2014 to 2017-2018. Tax provision (current and deferred) has not been created against income for this year 2020.

Income year	Assessment year	Tax paid
2012	2013-2014	346,859,002
2013	2014-2015	268,511,858
2014	2015-2016	241,577,287
2015	2016-2017	174,611,850
2016	2017-2018	155,220,621
Total		1,186,780,618

Given the above elaboration SABINCO therefore is not required to make any further tax provisions (both current and deferred) and accordingly no tax provision has been created for the year 2020.

2.10.3 Provision and accrued expenses

Provision and accrued expenses are recognized in the financial statements based on obligation in view of past event for which an outflow of economic benefit will be required to settle the obligation and a reliable estimate has been made for the amount of obligation.

2.11 Statutory reserve

In fulfillment of requirement of Financial Institutions Act, 1993, 20% of profit is being transferred to statutory reserve.

2.12 Revenue recognition

The revenues during the year are recognized on an accrual basis (other than interest on loan, interest on bond and dividend), which comply with the conditions of revenue recognition as provided in IFRS 15: Revenue from contracts with customer.

2.13 Compliance report on International Accounting Standards (IAS) and International Financial Reporting Standards (IFRS)

The following Accounting and Reporting Standards are applicable for Saudi Bangladesh Industrial and Agricultural Investment Company Limited (SABINCO) which are followed in preparing the Financial Statements of the Company.

Sl. No.	Name of the IAS	IAS No.	Status

Worker's Profit Participation Fund (WPPF)

In respect of Worker's Profit Participation Fund, Ministry of Finance and Bangladesh Bank have reviewed the law and proposed to the Ministry of Labor to exclude Banks and Non-Banking Financial Institutions from the requirement of the law regarding the provision of Worker's Profit Participation Fund and accordingly Ministry of Finance issued a letter on 14 February 2017 to the Ministry of Labor to waive Banks and Non-Banking Financial Institutions from the purview of the requirements of the Bangladesh Labor Act, 2006 as amended in 2013.

However, SABINCO maintain adequate general reserve and retained earnings required for Worker's Profit Participation Fund from the year 2014 to 2020.
